April 14, 2001

Committee

Carolyn Edwards and Laurel McCurdy gave an overview of the Randolph Field ISD Title I program. They provided the committee with a flow chart that illustrated all the components of the program and their interaction with other special programs. Each DEC indicator was noted on the applicable portion of the chart. The excellent parent participation (98%) was noted as well as how the reading strategies employed by the Title I teachers have been adopted by classroom teachers.

Rita Polen reviewed how Randolph Field ISD is part of the Education Service Center, Region 20, cooperatives for the Title II (Eisenhower Professional Development) and the Title VI (Innovative Programs). This means that Region is the fiscal agent and Randolph's staff have access to all math, science and Candace Anderson workshops without additional cost. As a district we also have access to technical assistance in math and science and language arts through these co-ops.

Information on Career and Technology will be shared at the May meeting. The committee will also set the calendar for the Campus Improvement Committee presentations to the DWIC and the DWIC's presentation to the Board of Trustees.

Next scheduled meeting: Tuesday, May 16, 2000

Randolph High School

Room 21

4:00 P.M.
