Districtwide Improvement Committee Minutes

September 5, 2007

Each campus committee presented their Campus Summary Report to the Districtwide Improvement Committee. These reports included the results each campus achieved in meeting their Campus Performance Objectives, the changes that occurred as the campuses worked to achieve their CPOs, and what they will work on in the future to help their students to increase their achievement.

The committee will review each Campus Summary Report prior to the next meeting in preparation for writing feedback to each campus.

Allana Hemenway shared the revised middle school CPO for 2007-2008. It is as follows:

All students will improve in student interpretation and application of content specific vocabulary. Low performing and at-risk students will be reported separately to track their improvement.

DWIC approved the middle school CPO.

Rita Polen shared the revised District Instructional Goal and Activities with the committee. These revisions incorporated activities to implement Professional Learning Communities in the district and to increase the use of formative assessments as part of PLCs.
