

Districtwide Improvement Committee Minutes

October 7, 2003

Rita Polen reviewed the District Improvement Plan Overview with the committee. The document outlines the process used in Randolph Field ISD to develop a district plan and explains how each component of the plan ties to the other components. DWIC members will be updated on various aspects of the District Improvement Plan throughout the year. The committee will make any changes that they deem necessary as they review the various components.

The Results of an Aligned Curriculum were reviewed by the DWIC. This document is a compilation of all the data collected on student results for the 2002-2003 school year. The committee discussed the information that is required by the No Child Left Behind legislation and the various aspects of the TAKS results.

Bruce Cannon and Karen Bessette shared information on the staffing patterns and the school organization for their particular campuses.

The Campus Improvement Committee Template subcommittee (Laurel McCurdy, Deb Pannabecker, Diane Hogan, Bruce Cannon and Rita Polen) will meet to develop a draft of the template to be used by each CIC when they report to the DWIC next fall. The purpose of the templates is to help the CICs to include the necessary information for the DWIC to evaluate the progress of each campus in achieving their CPOs.
