Each campus presented their Campus Summary Report to the Districtwide Improvement Committee. These reports included the results each campus achieved in meeting their Campus Performance Objectives, the changes that occurred as the campuses worked to achieve their CPOs, and what they will work on in the future to help their students to increase their achievement.

Karen Bessette gave an update on the development of the elementary Campus Performance Objective and the process they were using. The teachers and administrators have examined the data available in the Results of an Aligned Curriculum, and they are refining their CPO to reflect their continuing focus on improvement in mathematics. Once the elementary Campus Improvement Committee reviews and approves the CPO, Karen will share that objective with the DWIC.

The committee began to write the feedback to each campus on the Campus Summary Report that was presented at the beginning of the meeting.
