

## Districtwide Improvement Committee Minutes

September 12, 2002

The Districtwide Improvement Committee reviewed the revisions made in the District Summary for 2001. The committee then reviewed the PowerPoint presentation that the DWIC subcommittee and Susan Bendele had developed and made some revisions to reflect the changes that had been made in the District Summary. How the presentation to the Board of Trustees would be made and who would be involved in the presentation were discussed, and the members selected the parts of the presentation they would conduct.
