

Districtwide Improvement Committee Minutes

September 13, 2005

Each campus committee presented their Campus Summary Report to the Districtwide Improvement Committee. These reports included the results each campus achieved in meeting their Campus Performance Objectives, the changes that occurred as the campuses worked to achieve their CPOs, and what they will work on in the future to help their students to increase their achievement.

The committee discussed the request from the special teachers (art, music, Spanish, and computers) to revise the requirement that they assess the CPO in their classrooms and report those specific results to the Campus Improvement Committee. Instead they asked to support a grade level as they worked on the CPO and have the grade level assess the students. Their request was based on the fact that they meet with each class only once a week. The committee recommended that the elementary special teachers continue to work on the CPO, assess their students' progress within their classes and report that information to the CIC.

The committee will review each Campus Summary Report prior to the next meeting in preparation for writing feedback to each campus.

Next scheduled meeting: Tuesday, September 20, 2005
Randolph High School
Room 21
4:00 PM
