Strategic Planning Committee Minutes
August 14, 2007

The Strategic Planning Committee reviewed the final draft of the new Strategic Five Year Curriculum Plan for 2008-2012. The committee noted there were no changes to the draft and approved the plan as it was.

The SPC members reviewed the data in the Results of an Aligned Curriculum. Current data for these areas is not available through our data source, AEIS Report. Rita Polen stated that TAKS M (M stands for modified) replaces SDAA tests beginning this school year. TAKS ALT (TAKS Alternative) is used with students who are not addressing the TEKS because of their special needs (autistic, fragile health, etc.). Last year two Randolph Field ISD students were tested using TAKS ALT at the Special Education Co-op located at Ft. Sam Houston ISD.

Ron Bolin and Rita Polen reviewed the new scope and sequence template with the committee. The format is based on tabs and will be located through GradeSpeed. Ron spent the summer moving all the teachers' completed documents to the new format. This information will be shared with the faculty during staff development on Tuesday, August 21.

A pilot team of secondary teachers will implement the use of online lesson plans that will be tied to the scope and sequence units that have been developed. This pilot team will consist of teachers from the four core courses and electives who are interested in working on this project, and they will begin during the second six weeks. Next year everyone on the secondary campus will use the online lesson plans.

Implementation of the Quality Continuum will occur this year. In October cadre of teachers will be trained in the use of the continuum, and will then work with teachers one-on-one to use the document to improve their performance tasks.

The SPC will meet the Wednesday in November, February and May following the DWIC meetings during the 2007-2008 school year. Rita Polen will send SPC members the specific dates in the next week. Dick Wilson will be the facilitator for the November meeting, and Karen Bessette and Kirby Olson will be the recorders.

Next scheduled meeting: **Wednesday, November 14, 2007**
Randolph High School
Room 21
4:00 PM
