

## Strategic Planning Committee Minutes

May 14, 2008

Rita Polen shared information on the work of the Quality Continuum leaders during this past school year. These leaders were trained by the subcommittee members and then they have worked side by side with teachers as they reflected on their performance tasks. Next school year, the leaders will work with teachers during the first thirty minutes of staff development in August. These sessions will begin the process of reflecting on the teachers' performance tasks. The work will continue throughout the year.

Ron Bolin and Rita Polen reviewed the progress of the Online Lesson Plan Pilot Team with the SPC. The pilot team will continue their work for another year to alleviate any problems that may occur with the introduction of the use of online lesson plans with the rest of the secondary staff. In 2009-2010, all secondary teachers will use the online lesson plan process, and at the same time the elementary will pilot the use of online lesson plans. Implementation of online lesson plans at the elementary should take place in 2010-2011.

Rita Polen reviewed the 2008-2009 Professional Development Calendar with the committee.

The SPC will meet on Monday, August 4, from noon until 3:00 PM at the high school. Kirby Olson will be the recorder, and Dick Wilson will be the facilitator.

**Next scheduled meeting:      Monday, August 4, 2008**  
**Randolph High School**  
**Library**  
**Noon**
